STUDENT-ATHLETES | COLLEGE PLACEMENTS | VARSITY TEAMS

Our service provides support at every step of the scholarship placement journey. Developed from years of experience working with more than 900 student-athletes, we have built a comprehensive support package for players and families who require hands-on management of the recruitment process, with direct interaction on your behalf.

The first step is to create a bespoke personal profile that highlights achievements and academic credentials, which is then used to proactively market you to our extensive network of coaches at colleges and universities. Our team will advise you on your academic choices, eligibility criteria, social media presence and best fit, all of which are designed to maximise the opportunities available to you.

From here we work to generate placement options for you, identifying the best fits and negotiating scholarships on your behalf. Our service also incorporates assistance with admissions, VISA's and health insurance.

Thereafter, our service also expands to pastoral care for you and your family for the duration of your time in the USA.

From start to finish, our clients are supported through the entire scholarship process.

WHY CHOOSE TO STUDY AND PLAY IN THE US?

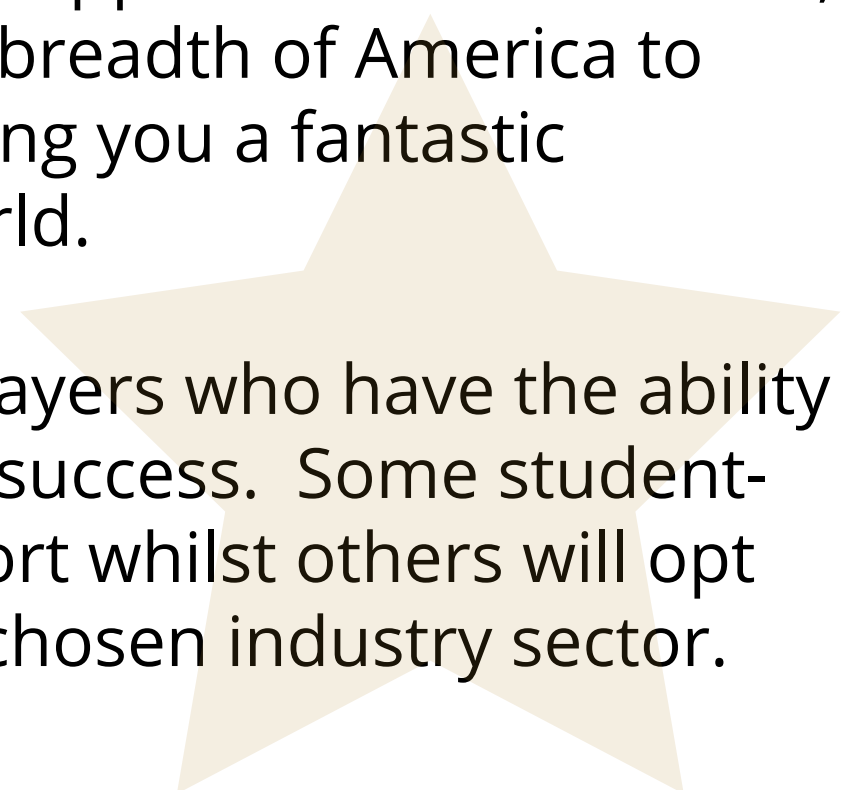

THE US IS THE MOST SOUGHT-AFTER STUDY DESTINATION IN THE WORLD.

More international students' study in the USA than any other country, and for good reason. While many of the world's top institutions reside in the US, there are also more than 4,000 other world-class universities offering a top-notch education that can lead to career success.

As talented student-athletes the collegiate route in your chosen sport will allow you the opportunity to combine playing full-time sport in world class facilities, whilst studying towards a university degree.

You will practice each day with your team under the management of a full time Head Coach who is assisted by assistant coaches and support staff. As athletes, you will have the opportunity to travel the length and breadth of America to play in matches, tournaments and competitions offering you a fantastic opportunity to meet team mates from all over the world.

College coaches will award scholarships to talented players who have the ability to play for their team and contribute to their ongoing success. Some student-athletes will go on to have a career in their chosen sport whilst others will opt to use their degree to become a professional in their chosen industry sector.

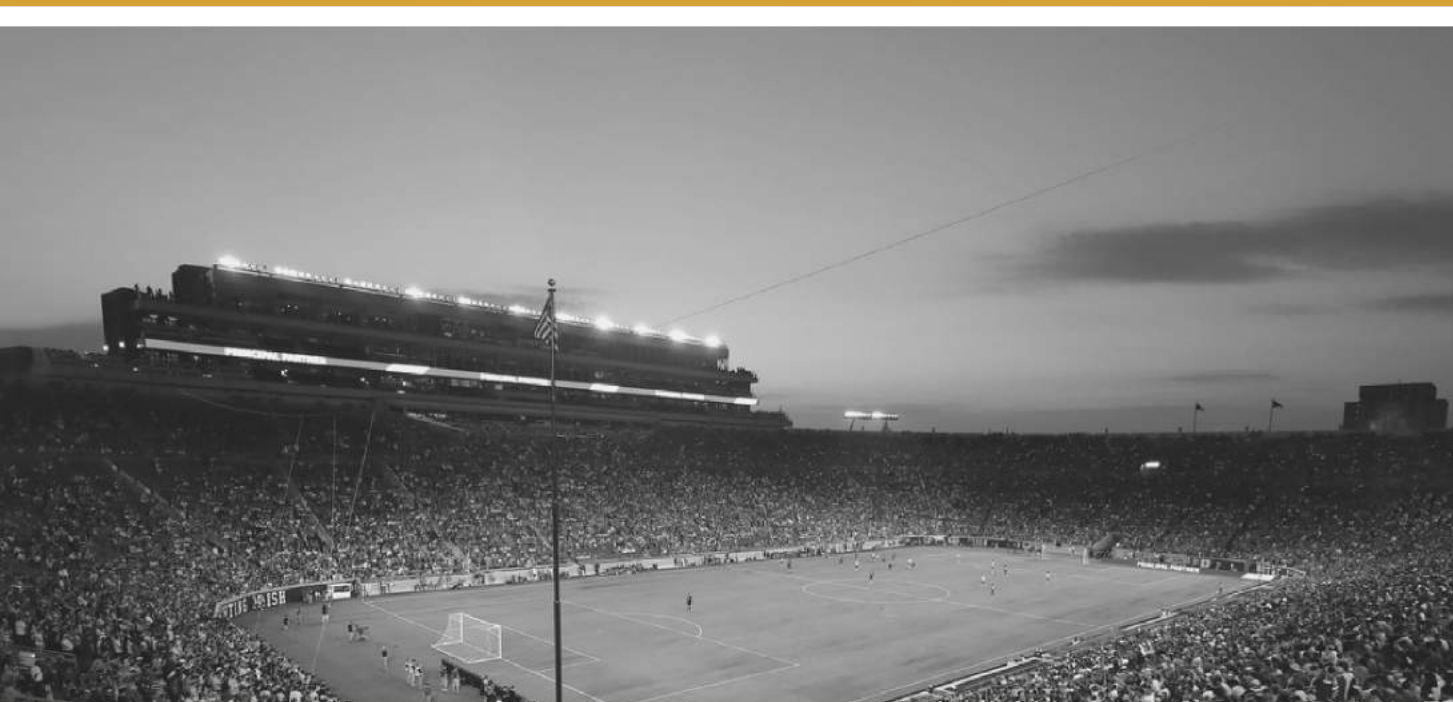

Many of the world's greatest sporting icons featured in US college system, including Tiger Woods (Stanford), Michael Jordan (University of North Carolina) and soccer star Megan Rapinoe (University of Portland) before going on to dominate their respective sports. If you have ambitions to match theirs, you've found the right place to start.

US College sport is unique. It is the top level of amateur sports competition anywhere in the world and is a multi-billion dollar industry in its own right. The scale of college sport is vast and is hugely popular on a regional, national and international level, attracting huge audiences, generating huge revenues.

The most popular sports, basketball and American football, generate the lion's share of that income: CBS Sports recently extended their deal for the television rights for US College basketball which saw them paying \$1bn per year.

All revenue generated is distributed among many other college sports. This pays for world-class facilities, coaching, competition and sports scholarships, all of which are required to attract the best amateur athletes from all over the world to study and play in the USA.

BE PART OF A BILLION DOLLAR INDUSTRY

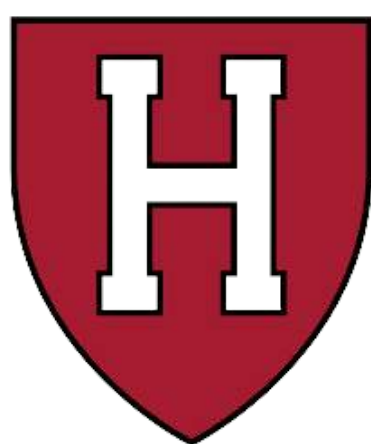

MAKING THE RIGHT CHOICE

TitleIX USA has built an extensive network of coaches and contacts from colleges and universities across the United States, securing placements with leading NCAA (DI, DII, DIII), NAIA and NJCAA teams for our clients across the world.

We are here to help you make the right decision to suit your needs, matching your sporting ability and align your academic ambitions. Below are just some of the institutions that we have worked with:

WHAT OUR CLIENTS SAY ABOUT US

I am so privileged to have had such an incredible opportunity and I owe it all to the support and hard work of Title IX USA. I'm grateful for everything they have done and helped to me to achieve!

IONA MACKILLOP, COLGATE RAIDERS

I have an exciting life changing opportunity ahead of me with a field hockey scholarship to Rider University. My dream is now a reality, I am really grateful to TitleIX USA for making this happen for me and for all their support.

VOIRREY BAKER, RIDER BRONCS

TitleIX USA provide a great service, they have an in-depth knowledge of NCAA regulations and make a daunting process seem really easy. TitleIX USA provided me with the best 4 years of my life and made sure that the university I attended was the best fit for my personality and life ambitions.

ERIN GILCHRIST, DREXEL UNIVERSITY

WHAT OUR CLIENTS SAY ABOUT US

Thank you so much Title IX USA for everything you have done for me. If it wasn't for your knowledge of the American college and university system, I wouldn't have had the opportunity to play and study in the USA. You understand and prepare student-athletes for what athlete life is really like so that we go into a process fully expectant of what challenges lie ahead of us.

ARCHIE SMITH, NEW YORK UNIVERSITY

Applying for an American university is a complicated process which, without Title IX USA, we wouldn't have been able to successfully navigate. Title IX USA have been fundamental in helping me to identify and pursue scholarships that are right for me, as well as helping me to fully understand what a day in the life of a student - athlete is really like and what is expected of you when you arrive on campus as a student-athlete'

'My parents and I have found Title IX USA to have enthusiasm in spades, balanced by being incredibly supportive, friendly, transparent and realistic. In all, they helped me with all aspects of the application process - from filming a highlight reel to studying for the SAT. I'd honestly say, if you want to develop yourself to be a skilled, innovative, rounded player who can give to the game as much as you get from it, then end-to-end, you can't do much better than the Title IX USA path.

IZZY VAN DER SPUY, COLLEGE OF HOLY CROSS

BUILDING YOUR OWN BRAND

A key aspect of the Title IX USA service is building your athlete profile to enable us to market you to our extensive network of college and university coaches. Your profile page on our website is a key selling point, from highlighting your sporting achievements, showing yourself in action, detailing your academic qualifications, providing information on your notable successes and bringing your personality to life.

We will work closely with you on improving your social media profile, by highlighting your performances and achievements on your own channels, as well as guiding you through the do's and don'ts of social media for prospective student - athletes.

You are at the stage of developing your own personal brand, to attract the eyes of colleges and universities, coaches and local media. Using social media correctly is a powerful element of managing your own brand and being more appealing to your audiences. At the other end of the scale, using social media badly can be hugely damaging to you and your brand and have long term consequences, even at a young age.

Finally, we will ensure you have a professional footage showreel that will be featured on our website as well as showcased on our social media platforms. This is an important element of our sell to prospective coaches and our team works hard with you to ensure this looks professional and stands out.

ANSWERING YOUR QUESTIONS

WHEN SHOULD I APPLY TO TITLE IX USA?

There is no specific time or age when you should apply to Title IX USA, however, experience has taught us that the more time we have to work with you as a prospective student - athlete, the better chances we have of securing you a significant scholarship.

WHY DO TITLE IX CHARGE A FEE BEFORE A SCHOLARSHIP HAS BEEN OFFERED TO ME?

Title IX's fee is for the provision of assistance and consultancy services including, but not exclusive to, assessing and consulting on the academic & athletic eligibility of its clients and guiding them through the scholarship application process. We are not permitted to charge a fee for our services based on scholarship offers secured for our clients. As such, our fee is charged in advance of our services commencing. (See NCAA rule 12.3 Use of Agents', available at www.ncaa.org)

WHY CAN'T TITLE IX GUARANTEE ME A SCHOLARSHIP OFFER?

NCAA rules prohibit any company or individual from guaranteeing your successful placement at an American college or university with an athletic scholarship. NCAA rules state, "A prospective student-athlete may allow a scouting service or agent to distribute personal information to member institutions without jeopardizing his or her eligibility, provided the fee paid to such an agent is not based on placing the prospective student-athlete in a collegiate institution as a recipient of institutional financial aid."

(see NCAA rule 12.3.3.1 'Talent Evaluation Services & Agents', available at www.ncaa.org).

ANSWERING YOUR QUESTIONS

ARE TITLE IX SPORTS AGENTS?

No. Having a professional agent is against NCAA rules (see NCAA rule 12.3.1 'Use of Agents', available at www.ncaa.org) and having one could make you ineligible to compete in college sports. Title IX does not provide services to professional athletes nor do we charge a fee based on the level or type of scholarship you receive, or indeed whether you receive a scholarship at all. Title IX's fees are solely for the guidance and advice we provide in connection with the scholarship application process.

WILL I RECEIVE A 'FULL SCHOLARSHIP'?

Foreseeing the monetary value of the scholarship that could be offered to you is something that is almost impossible to do. In addition to academic results, SAT test scores, timing, available budgets, and the coaches' perspective upon an individual's sporting ability (the college coach is the only one who could say to a prospective student athlete that they will receive 'a full scholarship') all have an impact. Title IX USA cannot and do not guarantee the ultimate level of scholarship awards made to our clients.

WHAT DOES A 'FULL SCHOLARSHIP' COVER?

You should expect that a 'full' or '100%' scholarship would cover the cost of tuition, room, board, books and sports related clothing & equipment. However, the terms of any offer should be reviewed as every offer has exclusions.

ANSWERING YOUR QUESTIONS

WHAT DOES A 'FULL SCHOLARSHIP' NOT COVER?

Flights to and from America, Travel Insurance, Health Insurance (unless specified by the university), spending money.

WHAT IS A PARTIAL SCHOLARSHIP?

A partial scholarship is where a university offers to fund part of what is listed under the 'full scholarship' above. This means that the coach would expect you to contribute towards the cost of attending the college.

WHAT SHOULD I BUDGET FOR THE YEAR?

Should you be successful in seeking a scholarship offer, it is highly likely that you will still be required to contribute towards your 1st, 2nd, 3rd, or 4th years' costs at university in the US. As a result, it would be worthwhile to consider what, if any, level of financial contribution you could potentially afford to make towards any costs not covered within any scholarship. Remember, scholarship contributions do not include flights, insurance and social spending, etc.

WHAT NOW?

We hope that this has given you a flavour of what to expect from the US student-athlete pathway. College Sport will offer you the platform to pursue your studies and sport at the highest level and the hard work starts now to make this dream a reality.

This is an exciting time of deciding what your college or university journey is going to look like, Title IX USA will support you through the entire scholarship process and ensure your journey comes to a successful conclusion.

ARRANGE A FREE CONSULTATION

We offer an initial free consultation for anyone considering a sports scholarship. During a 1-1 meeting with our team, we will educate you on college sport, what being a student-athlete is really like by building on our own individual experiences, explaining academic requirements, discussion on financial impact of the scholarship route and answer any questions you may have.
